Vision

To be at the forefront of higher education institutions, well known for escalating and transformational human development, for the elevation and betterment of society.

Mission

To prepare better individuals for the future, by providing them with innovative, research and teaching facilities, regardless of their gender, race, color, religion, caste, political beliefs, marital status, or family background. To groom them into empowered professionals, to enable them to sustain and prosper in this competitive, challenging, and dynamic world, under the supervision of competent and proficient faculty members, armed with knowledge and modern tools to deliver education in an effective yet efficient manner.

Core Values

Following are the eight core values of AIHE:

- ◆ Respect
- ◆ Service
- ◆ Excellence
- ◆ Integrity
- ◆ Compassion
- ◆ Diversity
- ◆ Hospitality
- ◆ Learning for life

One University; Many Advantages

Welcome to AIHE-A university recognized by Higher Education Commission(HEC) in Pakistan. If you are a dreamer, AIHE is the place for you. We help turn your dreams into reality through a systemized matrix focusing on strengthening your competence and character alike. Here, you will be able to have a transformative experience enriching you with in-depth learning and essential life skills. Also, while you are busy developing your skill set, we help you look at the bigger picture to locate yourself in society and how you can help transform it for the better –as a catalyst with the potential to shine brighter and help others do the same. So, step into our vibrant campus life where you can learn diversified skills. Immerse yourself in a stimulating environment, enriched with diverse academicians pedagogies, and industry-informed curricula. We are on a mission to turn today's learners into tomorrow's leaders, and we know you have one inside you!

Recognized By

HEC

The Higher Education Commission (colloquially known as HEC) is a statutory body whose main functions are funding, overseeing, regulating, and accrediting the higher education institutions. AIHE is recognized by HEC which is the highest degree awarding institution in Pakistan.

Message From the Chairman

At Askari Institute of Higher Education (AIHE) you do not just join a university, rather you are now a part of the family called Askari Fraternity - this is testimony of our care, concern, and core values. Our purpose-built campus offers a serene environment for creative inquisition and learning. Askari Institute of Higher Education aims to produce well-equipped graduates who will meet the requirements of global professional knowledge and be able to serve not only at the national level but also represent Pakistan internationally. For sure, knowledge is going to be the most important power source in the future, just as it is now. At AIHE, the main objective is to focus on applied training and professional development which will assist our students to orientate in contemporary areas and encourage them to grow into creative, modern, and critical individuals who can adapt easily to the ever-changing global environment. We are committed to encourage a critical learning environment for excellence. Furthermore, there is a multifold of co- and extracurricular activities to help you thrive mentally, physically, and even spiritually.

Engr. Muhammad Rafique
Chairman

Message From Member Board of Directors

Innovative organizations know how to put together bold and stimulating strategic plans. When conducted in true partnership with the community, such exercises are a guarantee of progress and success. On behalf of the board of directors, I am pleased and excited to receive my students in the upcoming year with full zeal and zest. I am confident that the members of the university community will make every effort to transform their learning experience. Also, that we will be creative in bringing this strategic plan to life. The board of directors will work side by side with you in the ongoing efforts to implement this exciting plan.

In the coming years, we will make AIHE a unique institution that is more modern, more efficient, and more transparent.

Dr. Nadeem Kiani
Member Board of Directors

Message From the Campus Director

As the Campus Director, I am delighted to welcome you to our university. Our goal is to contribute to the nation's development and beyond through quality education. AIHE is one of the prestigious universities in Pakistan. We believe, that every person in society deserves a high-quality education driven by the educational opportunity that is a basic need and human right; regardless of where a child is born, who his parents are, or the colour of his/ her skin. Providing ample educational opportunities is one of the most fundamental obligations each generation owes to the ones that follow. All across the globe, individuals, organizations, and governments recognize that education is the defining issue of our time, crucial to everything from personal opportunity and social mobility to world peace and prosperity. The role of the AIHE faculty is to support students in their learning journey.

Among other functions, we seek to ensure transparent, consistent, and equitable management as well as awards, evaluation, and quality assurance of all graduate programs.

Huma Arshad
Campus Director

ACADEMICS

Why Choose Allied Health Sciences ?

The importance of allied health professionals cannot be understated. Their role is to provide optimal care with high patient satisfaction as therapists, scientists, technologists, administrators, managers, and assistants with specialties in radiology, cardiology, and surgery, to name a few. For those, seeking a career in the medical field without the time and cost of medical school, allied health is an excellent choice to serve patients and assist doctors and nurses in providing diagnoses, recovery, and quality of life. Not only is it a rewarding career, but it is also an industry with a growing and promising demand.

As healthcare evolves and as we see improved health outcomes for patients treated by coordinated medical teams, the role of allied health professionals will continue to play a major role in doctor's offices, outpatient and inpatient facilities, primary, acute, and chronic care, and surgical teams. Working together to diagnose, prevent, and treat diseases, disabilities, and disorders, allied health practitioners do, and will continue to, influence the delivery of medical care, including advocating on behalf of patients.

Eligibility criteria for AHS:

The pre-medical students mostly prefer and take admission in the allied health sciences courses if they miss or don't get admission in MBBS or BDS. Moreover, like the MBBS and BDS graduate allied health professionals also get 17th scale government jobs.

Allied Health Sciences Courses:

- ▶ **BS MLT (Medical Lab Technology)**
- ▶ **BS RIT (Radiography and Imaging Technology)**
- ▶ **BS OTT (Operation Theater Technology)**

Why Choose BS Nursing ?

The Bachelor of Science in Nursing is four-years program and aims to train graduates to provide safe, competent, and compassionate nursing care grounded in theory and professional standards. The curriculum is based on the concepts of relational practice, leadership, critical nursing inquiry, and ethics of care. A specialized learning facility equipped with high-tech labs and computerized human patient simulators is available at the university.

Scope:

Internationally, a Bachelor of Science in Nursing is a well-known degree program. It provides you with a wide range of opportunities that can uplift your career. You can get the desired job in a reputable hospital by having a nursing degree. It will enhance your credibility and offer you competent roles for your professional growth.

BS Nursing is an international degree in nursing education; therefore, the demand for graduate nurses is very high abroad. Many graduate nurses from Pakistan go to foreign countries and find the best jobs with attractive salaries that are a big proof of the high demand for graduate nurses at international levels. For those who want to get more experience and upgrade their salary packages, applying for international nursing applications will be helpful. Due to the immense scope of nursing, you can get many different career options in nursing. Therefore, by having an adequate set of skills and information, you can have a competitive advantage in the work field as a qualified BSc Nursing professional.

Generic BS Nursing Admission Criteria:

Entry level for all Allied Health Sciences programs should be uniform and it shall be; minimum 50% marks in F.Sc (Pre-Medical) or equivalent are required for admission.

Why Choose BS Education ?

The purpose of the program is to provide a strong foundation in the field of education and integrate the core principles of effective teaching and managing educational organizations. The main goal of this program is to produce graduates, who can apply the science of learning to practical educational problems. The program not only meets the basic criteria of effective skills-based pedagogy and foundations for solid administration in public and private schools but also provides a clear path to pursue higher studies in Education (M.Phil/Ph.D.)

Career Path:

School Administrators, Specialised Private and Public Sector School Teachers, School Psychologists, Curriculum Developers, Education Consultants, Entrepreneurs in Education, Administrators in Development Sector, Academic Coordinators, Civil Services Aspirants e.t.c.

Eligibility Criteria:

Intermediate (any group)/A-Levels with at least 50% marks CGPA
2.0 out of 4 from a recognized university/institution.

Why Choose BS English ?

Students who graduate from this program have great talent and observation. Teaching is not the only option for such students. People with this degree have a lot more opportunities to explore and showcase their skills through work. Content writing, SEO Analyst, Administrator, Communication Expert, and numerous other posts and fields can be available for English graduate students. People with good English communication skills who have a good accent are like the cherry on the cake for employers. Communication is the elementary source of any good planning, deals, and supervision. It does not only put a great impact on the client but also adds to the aura of the surroundings. Effective speech can either make it or take it for the best of any company. Students with good communication and working skills are in high demand and can easily get jobs in the market. They can also start their own business of their interest.

Scope:

The university offers a four-years degree program in English Language and Literature. The program aims at developing learners' ability to critically read and analyse linguistics and literary texts in their historical, socio-political, cultural, and philosophical contexts combined with aesthetic pleasure and intellectual stimulation. The program structure is flexible and diverse to cater to the needs of the contemporary job market and student interests at the same time. The study of literature is blended with the study of the English language to improve the linguistic and pedagogical competence of those who wish to take teaching as their career as well as those preparing for careers in media, business, diplomacy, etc.

Eligibility Criteria:

Intermediate or an equivalent examination or A-Level with a minimum of 3 passes in principal subjects. Applicants with O-Level / A-Level and Technical studies must submit equivalence from IBCC.

Why Choose BS Psychology ?

BS Psychology is a Versatile Bachelor's Degree. It is the science of behavior and the mind. In this program, the study of psychology provides an understanding of the basic processes of sensation, perception, learning, cognition, development, and personality along with the principles of Social Psychology, Clinical Psychology, and Behavioral Neuroscience. The knowledge of psychological principles and scientific methods for evaluating theories and research in the Social Sciences is essential in our rapidly changing society. The basic goal of the program is to integrate the scientific foundation of Psychology with a strong background in Humanities along with basic science to better prepare students for advanced training in Psychology, Medicine, Cognitive Science, Neuroscience, and other related disciplines. The BS Degree program is explicitly aimed at preparing students for advanced graduate study in the sciences and science-based professions.

Project/Internship Report:

Both project and internship are mandatory for the completion and award of a BS Psychology degree.

Career Path:

Career Counselor, Case Manager, Child Care Worker, Laboratory Assistant, Market Researcher, Psychiatric Technician.

Eligibility Criteria:

- ▶ Intermediate (equivalent to 12 years of education) with at least 45% marks.
- ▶ Applicants with O / A-Level and technical studies must submit equivalence from IBCC.

Why Choose BS Computer Science ?

Bachelor of Science in Computer Science also known as BSCS is a four-years degree with eight semesters and a final year project. BSCS focuses on computers and their algorithms to teach students how computer works from the very beginning to advance level. The department of Computer Science offers a wide range of courses at various levels. The purpose of these courses is to provide opportunities for advanced studies and research in the field of Computer Science and Information Technology and related fields, and also to produce highly skilled computer personnel to cater to the need of Computer professionals in the country and abroad. The department maintains a high standard of education through continuous assessment and periodic tests, quizzes, seminars, and field projects. It also keeps close links with professional organizations at national and international levels, to enhance the professional and academic standards of the faculty and as well as of the students.

Career Opportunities:

Computer Science program has a huge scope in the market because in this modern age there is no business that can be successful without involving computers and programs in its business infrastructure. Whether the medical industry or the military everybody or every business needs a team of computer experts.

Eligibility Criteria:

The minimum requirement for admission in a BS (Computer Science) is at least 50% marks in the Intermediate (HSSC) examination with Mathematics or equivalent qualification with Mathematics certified by IBCC.

Why Choose BBA (Bachelor of Business Administration) ?

The four-years BBA program serves the need of those who are looking for a career in the management profession or towards higher education in business administration. Being a program with challenging curricula and contents, it is appropriate for those who have an excellent academic record and a high potential for success. The BBA degree promises graduates a higher level of employability in the entry-level management profession by helping them excel in professional and personal development. The program offers a rich blend of general education; general management skills like communication, decision-making, leadership, teamwork, and quantitative methods. It also aims to sensitize the graduates about their social and environmental responsibility.

Career Opportunities:

The scope of BBA is very wide in Pakistan. Business graduates are offered jobs by business organizations and corporations. Students can go for the following jobs after completing the degree:

Business Consultants, Bank Manager, Finance Manager, Production Manager, Research and Development Manager, Human Resource Manager, Information System Manager, Sales Manager, etc.

Eligibility Criteria:

Intermediate or an equivalent examination or A-Level with a minimum of 3 passes in principal subjects. Applicants with O/ A-Level and technical studies must submit equivalence from IBCC.

Why Choose BS Economics ?

The Bachelor of Science in Economics program is designed for those students who, after completing their 12 years of education, are looking for some knowledge-based, career-oriented, and market-determined educational program in the field of Economics. The program is a blend of different courses like theoretical, quantitative, and applied areas in economics, which will enable students to review, analyse and provide solutions.

Career Opportunities:

Below are the sectors that provide jobs for Economic graduates in Pakistan:

- ◆ Investment banking
- ◆ Financial sector
- ◆ NGOs
- ◆ Government Economic Cells and Departments
- ◆ Insurance Companies
- ◆ Private sector – Finance and Accounting Department
- ◆ Risk Assessment Companies

Eligibility Criteria:

Intermediate (equivalent to 12 years of education) with at least 45% marks.

Why Choose BS Mass Communication ?

Bachelor of Science in Mass Communication is designed for students who want to obtain a background in general communication skills while concentrating in any one of the areas. These concentrations prepare students either for a variety of positions in media-related professions or for further advanced study.

The BS Mass Communication requirements includes both professional and academic courses. Professionally oriented courses help students develop specific marketable skills.

Career Opportunities:

- ◆ Broadcast journalist
- ◆ Newspaper journalist
- ◆ Magazine journalist
- ◆ Online journalist

Eligibility Criteria:

Intermediate (equivalent to 12 years of education) with at least 45% marks.

STATE-OF-THE-ART FACILITIES

Well-Equipped Classrooms

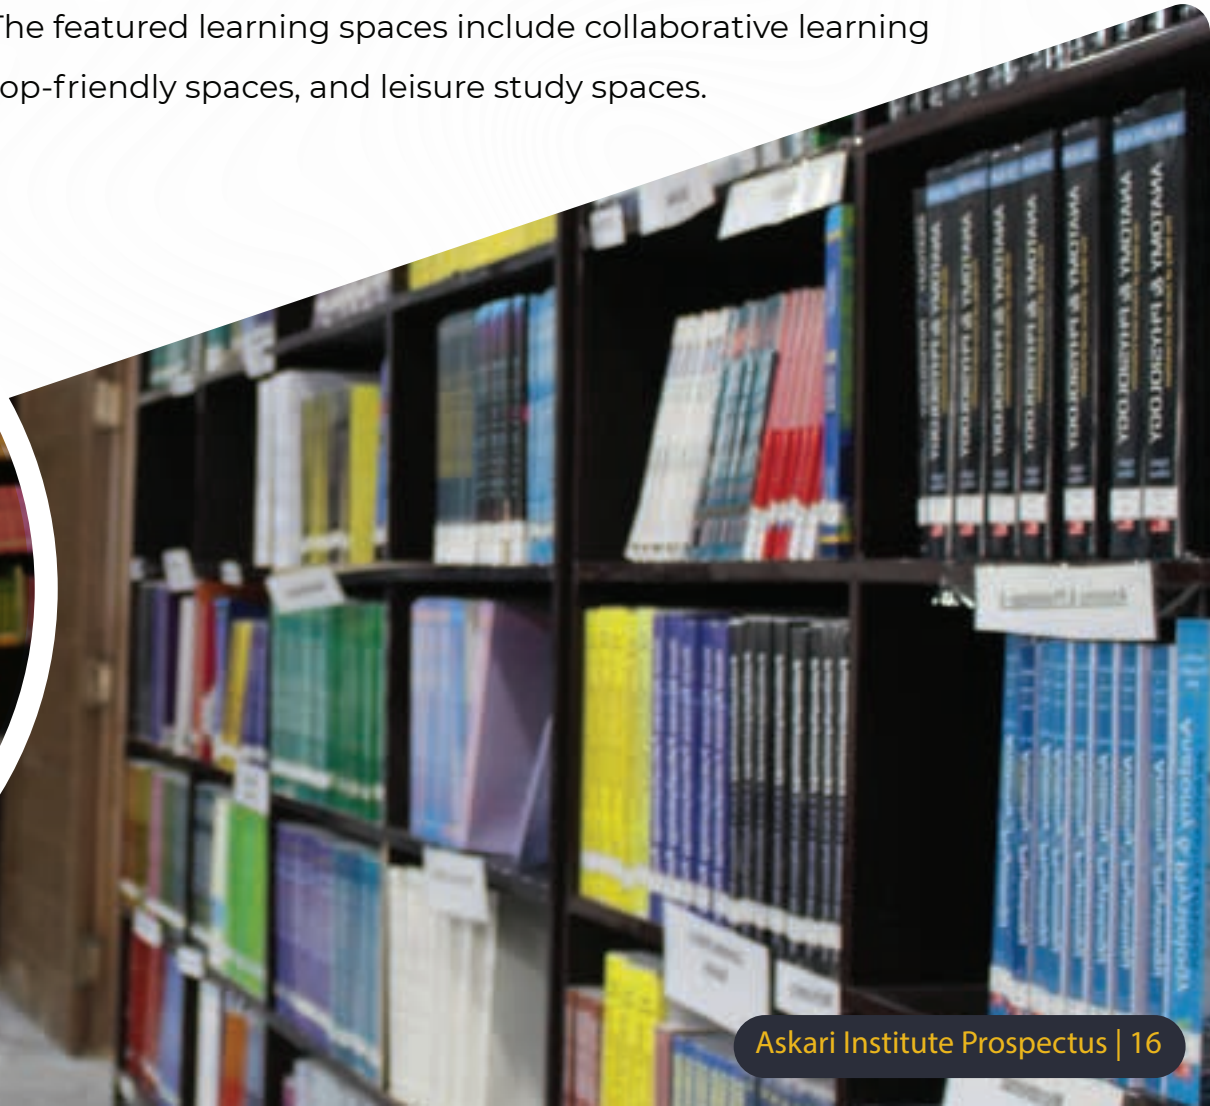

The classrooms are spacious, voluminous, and well-ventilated with abundant natural light to provide the right ambiance for an effective learning experience. These rooms are well equipped to deal with the needs of students. Each one contains equipment needed for presentations, projects, and workshops. The classroom environment is comfortable and ideally conducive to learning. AIHE has made every utmost effort, in order to ensure that students get excellent learning and allied facilities at the campus.

Library

The library supports teaching, learning, and research at the institute by acquiring relevant resources and proactively offering new services pivotal to foster learning. The library system consists of two libraries, one exclusive for Allied Health Sciences and Nursing and one for all other subjects AIHE offers on campus. Library regularly updates its collections with the latest learning materials including books, case studies, and indigenous research support materials.

Library facilities at the campus provide a stimulating learning environment. The library spaces and facilities have been designed keeping in view contemporary learning styles. The featured learning spaces include collaborative learning spaces, individual study spaces, multimedia facilities, laptop-friendly spaces, and leisure study spaces.

Labs

Laboratories are a seed ground where students get to explore, question, invent, deduce findings and learn collaboratively. The university possesses well-designed, spacious, and well-equipped laboratories. They have all sets of accurate instruments, kits, models, charts, and other necessary apparatus. AIHE's well-equipped labs help the students to develop a scientific temper in them. Each lab has a spacious work area and is equipped with computers. Trained lab assistants help in the maintenance of these laboratories

Cafeteria

The campus cafeteria caters to the needs of the institute's populace with hygienic meals, snacks, and refreshments that are available at an affordable rate. It is to be noted that a formal food street is under construction just outside the campus and will also have special packages for students, staff members, and faculty.

Auditorium

AIHE auditorium is a nucleus for all activities and events that take place on the campus. The purpose-built auditorium has an advanced multimedia system and has a capacity of accommodating 1200 people at a time. It has been built according to international standards and allows university to play host to countless events such as conferences, speaker sessions, musical performances, and theatre plays.

Sports Facilities

We, at Askari Institute of Higher Education strongly believe that a healthy body leads to a healthy and sharp mind. AIHE has a dedicated sports department with specialised sports officers to assist students at all times. Coaching lessons are also provided to students by these professionals for technique improvement or learning of any new sport. The institute has direct access to a national standard cricket ground and other sports facilities. Some of the indoor/outdoor sports that can be played at AIHE are cricket, badminton, volleyball, table tennis, chess, carom board, and snooker etc. AIHE has also set up arrangements with local grounds for shared facilities to cater the needs of students in other sports such as football, basketball, etc.

Societies and Clubs

Life at AIHE is not all about academics and study alone. We know that students need a respite from their tough study schedules. This is necessary to re-invigorate their energies and for the overall holistic development of the participants. The university body manages a wide range of clubs and societies catering to both co-/extracurricular activities. All that students have to do is choose an area of interest.

Here is a list of the clubs and societies that are open to membership for all students:

**Adventure
Club**

**Blood Donor
Society**

**Bioverse
Club**

**Calligraphy
Society**

**Computer Science
Society**

**Debating
